During the reporting period, the course of the project was influenced to a great extent by the coronavirus pandemic. In consequence, the following activities were implemented differently:

- The coronavirus pandemic had such a profound impact on the youth sector in general, and on European youth work specifically, that all project partners agreed it would be inadequate to conduct case studies on organisational learning during a time when many programme beneficiaries have to shrink and oftentimes even fight for their survival. The approach to the case studies was discussed and adjusted several times during the reporting period in the common attempt of project partners to respect these stark realities. Case study implementation started at the end of this reporting period.
